

EJPB Vol 11 (1) 2020

Contents

S. No.	Title	Page No.
Research Articles		
1.	Studies on indices and morphological traits for drought tolerance in rainfed rice (<i>Oryza sativa</i> L.) S. Muthuramu and T. Ragavan	1-5
2.	Sorghum K 12(TKSV 0809) - A high yielding dual purpose sorghum variety for southern district of Tamil Nadu R. Sankarapandian, A. Ramalingam, N. Malini, S. Hari Ramakrishnan and E. Murugan	6-10
3.	National release – A high yielding, short duration, non – lodging and bold seeded proso millet variety TNPm 230 as ATL1 A. Nirmalakumari, A. Subramanian, A. Thanga Hemavathy, R. Kanchanarani, S. Manoharan, T. Raguchander, K. Sivagamy, M. Rajesh, P. Parasuraman, M. Jayachandran and R. Ravikesavan	11-17
4.	Studies on trait association and path co-efficient analysis of sesame (<i>Sesamum sp.</i>) for quantitative traits and oil quality parameters S. Kiruthika, S. Lakshmi Narayanan, C. Parameshwari, P. Arunachalam and M.L. Mini	18-24
5.	Genetic study for yield and yield components in crosses between trypsin inhibitor free and expressing soybean [<i>Glycine max</i> (L.) Merrill.] genotypes. S.T. Pawale, T. J. Bhor, G.C. Shinde, M. P. Deshmukh, C. A. Nimbalkar and V.P. Chimote	25-29
6.	Genetic studies in colour-cotton (<i>Gossypium hirsutum</i> L.) genotypes for seed cotton yield and fibre quality traits H. S. Saritha and Rajesh S. Patil	30-35
7.	Combining ability studies for seed cotton yield in intraspecific hybrids of upland cotton (<i>Gossypium hirsutum</i> L.) K. Manonmani, L. Mahalingam, D. Malarvizhi, N. Premalatha and N. Sritharan	36-44
8.	Regression analysis and inter generation trait association in F ₃ and F ₄ generation of wheat S. Vijay Kumar, Mukesh Kumar, Vikram Singh, Samita, Lakshmi Chaudhary, R.N. Sheokand and Pawan kumar	45-53
9.	Evaluation of sesame (<i>sesamum indicum</i> L.) genotypes for genetic variability based on different traits under rainfed conditions Manjeet, P.K. Verma, R. K. Sheoran, Mohit Nain and R. Avtar	54-59
10.	Diversity analysis for yield traits and sheath blight resistance in rice genotypes Susmita Dey, Jyothi Badri, K. B. Eswari and V. Prakasam	60-64

11.	Genetic variability and correlation for yield and yield attributes in promising black pepper genotypes M S. Shivakumar, K V. Saji and B. Sasikumar	65-69
12.	Identification of germplasm lines for diversification of dual-purpose sorghums P. Sanjana Reddy, B. R. Ranwah and Sushil Pandey	70-75
13.	Genetic divergence studies in pearl millet (<i>Pennisetum glaucum</i> (L). R. Br) S. Swamynatham, M. Hemanth Kumar, D. Mohan Reddy and P. Latha	76-80
14.	Estimation of gene effects for yield attributing traits in mungbean (<i>Vigna radiata</i>) and urdbean (<i>Vigna mungo</i>) for intra and interspecific crosses Sima Sinha, S. B. Mishra, Alok Kumar and S.S. Pandey	81-85
15.	Standardisation of <i>Agrobacterium</i> -mediated transformation in WP-22-2 – a semi-dwarf and early maturing rice mutant of improved white ponni M.T. Andrew Peter Leon, K. K. Kumar, R. Pushpam, R. Kannan and M. Arumugam Pillai	86-90
16.	Genetic variability in rice (<i>Oryza sativa</i> L.) landraces for seedling vigour traits M. Akshaya, T. Thirumurugan, S. Chitra, S. Nithila and P. Jeyaprakash	91-96
17.	Evaluation of combining ability and gene action in barley (<i>Hordeum vulgare</i> L.) using Line x Tester analysis Anju Kumari, S. R. Vishwakarma and Yogendra Singh	97-102
18.	ADT 53- Short duration high yielding fine grain rice variety for <i>kuruvai /Kodai</i> seasons of Tamil Nadu R. Pushpa, R. Saraswathi, D. Sassikumar, R. Chandirakala, R. Suresh, B. Meenakumari, K. Chozan, S. Suresh, A. Karthikeyan and V. Ravi	103-109
19.	Correlation study of traits associated with shoot fly resistance in recombinant inbred lines (RILs) population of sorghum [<i>Sorghum bicolor</i> (L.) Moench] Ehab, A.A. Salama, N. Kumaravadivel, S. Mohankumar and N. Muthukrishnan	110-115
20.	Genetic divergence among blackgram (<i>Vigna mungo</i> (L.) Hepper) genotypes using Mahalonobis D ² statistic K. Rajalakshmi, N. Manivannan, G. Anand, C. Vanniarajan and S. Harish	116-119
21.	Studies on efficiency of artificial hybridization in groundnut (<i>Arachis hypogea</i> L.) R. Sangeetha Vishnuprabha, PL. Viswanathan, S. Manonmani, L. Rajendran, and T. Selvakumar	120-123
22.	Genetics of fruit yield and its component characters in okra (<i>Abelmoschus esculentus</i> (L.) Moench) S. Mudhalvan and N. Senthil Kumar	124-126
23.	Principal component analysis for grain quality characters in rice germplasm K.R.V. Sathya Sheela, S. Robin and S. Manonmani	127-131
24.	Genetic studies on sesamin and sesamol content and other yield attributing characters in sesame (<i>Sesamum indicum</i> L.) Sunkesula Mohammad Usman, PL Viswanathan , S. Manonmani and D. Uma	132-138

25.	Selection of promising parents and crosses using combining ability analysis for development of high yielding varieties and hybrids in safflower (<i>Carthamus tinctorious L</i>) N.S. Rathod, V.L. Gawande, R.D. Ratnaparkhi and Indrayani H. Thorat	139-143
26.	Assessment of genetic variability, character association and path analysis for yield and yield component traits in rice (<i>Oryza sativa L.</i>) K. Sudeepthi, T. Srinivas, B.N.V.S.R Ravi Kumar, D.P.B Jyothula and Sk. Nafeez Umar	144-148
27.	Marker assisted recurrent selection for genetic male sterile population improvement in rice P. J. Suryendra, P. Revathi, Arun Kumar Singh and B. C. Viraktamath	149-155
28.	Genetic divergence of blackgram genotypes (<i>Vigna mungo (L.) Hepper</i>) P. Punithavathy, N. Manivannan, A. Subramanian, P. Shanthi and V. Babu Rajendra Prasad	156-159
29.	<i>Agrobacterium</i> -mediated transformation of brinjal (<i>Solanum melongena L.</i>) using fungal resistant gene Shreedhar Ganapati Bhat, G. Arulananthu, G. Rajesh and N. Ramesh	160-168
30.	Evaluation of altered biomass mutant contributing increased grain yield in Rice (<i>Oryza sativa L.</i>) S. Vinothini Bakya, S. Geetha, P. Jeyaprakash, S. Rajeswari, M. Raveendran, P. Jeyakumar, S. Athira and S. Robin	169-175
31.	Multivariate analysis of 102 Indian cowpea (<i>Vigna unguiculata (L.) Walp.</i>) germplasm E. Vijayakumar, K. Thangaraj, T. Kalaimagal, C. Vanniarajan, N. Senthil, and P. Jeyakumar	176-183
32.	Genotype-by-environment interaction and yield stability of maize(<i>Zea Mays L.</i>) single cross hybrids Srinivasa Reddy Boreddy, K. N. Ganesan, R. Ravikesavan, N. Senthil and Raman Babu	184-191
33.	Association studies in barnyard millet (<i>Echinochloa frumenetacea (Roxb.) Link</i>) for early maturity and yield contributing traits at high altitude region R. Prabu, C. Vanniarajan, M. Vetriventhan, R. P. Gnanamalar, R. Shanmughasundaram and J. Ramalingam	192-196
34.	Mutagenic effectiveness and efficiency of sodium azide in rice varieties G. Vinithashri, S. Manonmani, G. Anand, S. Meena, K. Bhuvaneshwari, A. JohnJoel, C. Vanniarajan, K. Ganesamurthy and Vikash Kumar	197-203
35.	Breeding system study in sunnhemp (<i>Crotalaria juncea L.</i>) – A stepping stone in crop improvement R. Nirmalaruban, N. Meenakshi Ganesan and P. Anantharaju	204-209
36.	Genetic variability and association analysis in barnyard millet mutants S.Vikram, R. Sudhagar, P. Masilamani and C.Vanniarajan	210-216

37.	Deciphering drought tolerance potential of sweet corn genotypes through polyethylene glycol induced drought stress T. Nivethitha, R. Ravikesavan, N. Kumari Vinodhana and N. Senthil	217-223
38.	Assessment of combining ability for yield and yield contributing traits in sweet corn R. Ravikesavan, B. Suhasini, A. Yuvaraja and N. Kumari Vinodhana	224-229
39.	Correlation, path analysis and stress indices studies of <i>Salto</i> / introgressed lines of rice for salinity tolerance U. Kiruthikadevi, S. Banumathy, P. Arunachalam, R. Renuka and T. Thirumurugan	230-237
40.	Determination of optimum dose of chemical mutagen for large scale seed treatment of white seeded sesame (<i>Sesamum indicum</i> L.) varieties V. Sandhiya, M. Kumar, C. Parameswari, C. Vanniarajan, N. Kumaravadivel, N. Sakthivel and Anand M. Badigannavar	238-242
41.	Standardization of vitrification treatments for safe cryo-conservation of banana (<i>Musa acuminata</i> Colla) cultivars using differential scanning calorimetry A. Sivakumar, V. Thiruvengadam, K. Hemaprapha, P. Paramaguru and S. Manonmani	243-251
42.	Assessment of genetic diversity of maize (<i>Zea mays</i> L.) hybrids under water logging condition Gayatri Kumawat, Jai Prakash Shahi and Munnesh Kumar	252-258
43.	Character association and principal component analysis for seed yield and its contributing characters in greengram (<i>Vigna radiata</i> (L.) Wilczek) A. Mahalingam, N. Manivanan, K. Bharathi Kumar, P. Ramakrishnan and K. Vadivel	259-262
44.	Genetic divergence in advanced breeding lines and varieties of mungbean P. Mathankumar, N. Manivannan, A. Subramanian, P. Shanthi and V. Babu Rajendra prasad	263-266
Research Note		
45.	Green leafy mustard: A healthy alternative Usha Pant, Ram Bhajan, Anita Singh, Kalpana Kulshrestha, A K Singh and Himanshu Punetha	267-270
46.	Interspecific hybridization and crossability studies of cultivated varieties of <i>Vigna mungo</i> L. Hepper with <i>Vigna mungo</i> var <i>silvestris</i> V. Jayashree, A. Muthuswamy, P. Jayamani and K. K. Kumar	271-275
47.	Morphologically elite genotype in gymnema TNGSy-55-IC-0630558 L. Nalina and K. Rajamani	276-278
48.	Evaluation of genetic parameters of agro-morpho-quality traits in American cotton (<i>Gossypium hirsutum</i> L.) A. Anjani, V. Padma, J. V. Ramana and Y. Satish	279-282
49.	Association analysis of F ₂ generation in rice (<i>Oryza sativa</i> L.) under salinity condition R. Muthuvijayaragavan and E. Murugan	283-289

50.	Callus induction in <i>Hydnocarpus pentandra</i> (Buch. Ham.) Oken using shoot tips Vighnesha Bhat, P. E. Rajasekharan, G. Raviraja Shetty, Sadashiv Nadukeri and M. Ganapati	290-292
51.	Association and path co-efficient analysis among leaf yield and its component in coriander (<i>Coriandrum sativum</i> L.) genotypes R. Chitra and A. Devakiruba	293-297
52.	Correlation studies in elite lines of upland cotton (<i>Gossypium hirsutum</i> L.) Pooja Rai and O. Sangwan	298-300
53.	Genetic variability studies for yield and its component traits in newly developed sunflower (<i>Helianthus annuus</i> L.) hybrids K. Varalakshmi, S. Neelima, R. Narasimha Reddy and K. N. Sreenivasulu	301-305
54.	Correlation and path coefficient analysis of various sorghum genotypes (<i>Sorghum bicolor</i> L. Moench) for quality traits Neha Rohila, Satyawan Arya, Pummy Kumari and Pinki	306-309
55.	Genetic diversity in pearl millet inbred restorers for agro-morphological and grain quality traits V. Sharma, L. D. Sharma, M. L. Jakhar, M. Govindraj, R. V. Singh, S.K. Sharma, S. Get, N. Parashar and R. K. Solanki	310-313
56.	Selection indices for yield improvement in bread wheat (<i>Triticum aestivum</i> L.) S. G. P. Karthikeya Reddy and C. A. Babariya	314-317
57.	Studies on genetic variability and response to selection for quantitative and qualitative traits over environments in brinjal (<i>Solanum melongena</i> L.) M. Siva, B. Balakrishna and T.S.K.K.K. Patro	318-321
58.	Studies on genetic diversity for yield, quality and yield attributing traits in cluster bean [<i>Cyamopsis tetragonoloba</i> (L.) Taub.] genotypes Bakang k. Kgasudi, G. Kranthi Rekha, K. Uma Jyothi and K. Sasikala	322-327
59.	Study of genetic variability and heritability in Indian bean (<i>Lablab purpureus</i> L.) U. C. Gamit, L. L. Jivani, H. P. Ponkia, A. Balas and A. T. Vadavia	328-330
60.	Effect of pre sowing seed treatments on germination and seedling growth parameters of <i>Hydnocarpus pentandra</i> (Buch. Ham.) Oken Vighnesha Bhat, P.E. Rajasekharan, G. Raviraja Shetty, Sadashiv Nadukeri and M. Ganapati	331-334
