

Contents

| S. No. | Title | Page No. |
|--------------------------|--|----------|
| Research Articles | | |
| 1. | Combining ability and gene action for fodder quality improvement in brown midrib sorghum (<i>Sorghum Bicolor</i> (L.) Moench.) Ambika More, R.R. Dhutmal, H.V. Kalpande, D.B.Deosarkar, Ashok Kumar and A.V. Umakant | 425-432 |
| 2. | Root traits profiling for identification of nitrogen efficient wheat lines Neetu Soni and Yong Li | 433-441 |
| 3. | Characterization of linseed (<i>Linum usitatissimum</i> L.) germplasm for genetic diversity and G x E interaction Alka, A K. Toor, C. Attri, S. Sharma, N. Sandhu and R. Kapoor | 442-456 |
| 4. | Combining ability analysis and breeding for early- maturing cotton (<i>Gossypium hirsutum</i> L.) varieties using Line x Tester analysis N.M. Khojambergenov, K.J. Jumaniyazov, D.I. Rasulov, E.A. Kurbanov and Sherzod A. Korabayev | 457-462 |
| 5. | Morpho-phenological diversity and performance of palmyrah (<i>Borassus flabellifer</i> L.) accessions J. Phani Kumar, P.C. Vengaiyah, K. Rajendra Prasad, G. Narasimha Murthy, B. Augustine Jerard and S. Sumitha | 463-469 |
| 6. | Integration of canonical correlation, cluster analysis, and MGISI for identifying stable fertility restorers in <i>Maldandi</i> cytoplasmic background of Sorghum S. Keerthana and B.D. Biradar | 470-478 |
| 7. | Evaluation of F₂ progeny families of brinjal three-way cross hybrids for tolerance to shoot and fruit borer Amina Aftab, Jiji Joseph, Kasireddy Sivasankarreddy, P.P. Thirumalaisamy, Berin Pathrose and Deepu Mathew | 479-488 |
| 8. | Heterosis and combining ability analysis using landrace-based hybrids for yield and yield components in <i>rabi</i> sorghum Basavaraj M Pattanashetti, G. M. Sajjana, M. S. Maralappanava, K. O. Swaroop and C. D. Soregaon | 489-495 |
| 9. | Elucidating the combining ability and gene action for direct and reciprocal crosses in chilli under North-Western Himalayas Sakshi Singh, Amit Vikram, Ramesh Bhardwaj, RK Dogra, Meenu Gupta and Sudha Singh | 496-506 |

| | | |
|-----------------------|---|---------|
| 10. | Genetic diversity analysis of wheat under timely, late and very late sowing conditions Makkena Triveni and P. L. Kulwal | 507-519 |
| 11. | Stability analysis of single crosses derived from diverse inbred lines of maize (<i>Zea mays</i> L.) G. Anusha, D. Bhadru, S. Vanisri, G. Usha Rani, B. Mallaiah and Sridharv | 520-530 |
| Research Notes | | |
| 12. | Evaluation of spontaneous mutant lines of <i>Gossypium barbadense</i> (L.) A. Manivannan and V N. Waghmare | 531-533 |
| 13. | Trait interrelationships for pre-harvest sprouting tolerance in greengram: A correlation and path analysis approach J. Pranaya, N. Hari Satyanarayana, V. Roja, A. Srividhya, P. Supriya and K. Jayalalitha | 534-540 |
| 14. | Genetic diversity analysis of upland cotton (<i>Gossypium hirsutum</i> L.) genotypes using cluster analysis Ch. Mohan Mani Kanta, N. Chamundeswari, K. V. Siva Reddy and B. Sreekanth | 541-547 |
| 15. | Genetic diversity for yield and morpho-physiological traits in foxtail millet (<i>Setaria italica</i> (L.) P. Beauv.) Uppala Sai Ram, B. Santhosh Kumar Naik, R. Narasimhulu, D. Venkatesh Babu and M. Reddi Sekhar | 548-554 |
